KITCHEN + BATH SUITE LIFE

COMBINING DESIGN DETAILS WORTHY OF RESIDENTIAL INTERIORS WITH THE PERKS OF A LAVISH RETREAT, OUR CURRENT HOTEL-INSPIRED KITCHEN AND BATH FAVORITES ARE ELEVATING THE LUXURY GETAWAY EXPERIENCE.

WRITTEN AND PRODUCED BY **PAULETTE PEARSON**

While there's no place like your own abode, we'd wager that any one of the hotel kitchens or baths we hand-selected for the following pages would prove suitable exceptions. Hot spots such as this Soho House Istanbul apartment have all the calling cards of luxury lodging but enjoy amplified comfort and convenience thanks to design details—such as this fully integrated kitchen and bar—reminiscent of a residential space. Offering more than simply mini bars and plush towels, our top picks also boast walk-in showers clad in hand-painted tile, or even contemporary freestanding tubs set against historic architecture—So, kick back, relax and plan for an extended stay, because these design-driven destinations feel a lot like home—only better.

DU CAFÉ

Nothing beats waking up to a hot pot of freshly brewed coffee, especially when your caffeine fix comes with a heavy side of style thanks to the minimalist lines of the S02 Brewer Stand Set by Kinto. The stand's brass is blasted for a vintage look and appears delicate when paired with the glass pour-over vessel, making even the gloomiest mornings appear brighter. kinto.co.jp/en/

Brass & Blue

Designers Tara Mangini and Percy Bright of Jersey Ice Cream Company specified this kitchen within an apartment-like suite in Philadelphia's Lokal Hotel with simple lines and Shaker-style millwork inspired by its surroundings. The kitchen also pairs light plaster walls with darker bottom cabinets to great effect as a nod to colorways of centuries past. "Design-wise, we took as many cues as we could from the historic neighborhood, one rich in American manufacturing history and beautiful late-19th-century buildings," explains Bright. staylokal.com

ON THE MARK

At first glance, one might mistake this chic room for the galley kitchen of an urban pied-à-terre. However, the space—featuring a customizable cabinet system designed by Piero Lissoni for Boffi with black granite countertops and appliances from Gaggenau, Miele and Sub-Zero—is in fact ensconced in one of The Mark's Premier Three-Bedroom Suites in New York City. A bright banquette is the cherry on top. themarkhotel.com

PERFECT SERVE

Replicate five-star service *chez vous* with brunch presented on a one-of-a-kind sleek acrylic tray with modern brushed-brass handles. Printed with high-resolution photographs of agates, the nature-inspired showpiece by Times Two Design by Lauren Renfrow is sure to rock any fête. timestwodesign.com
